ORDERING INFORMATION

Look for the “*What We Need to Know*” features throughout the catalog for the type of product you wish to have quoted. This will help you gather the information your Customer Service Representative will need to have to assist you.

**To order or to receive a quote from
Arizona Correctional Industries (ACI).**

Call us toll-free at 1-800-992-1738, or (602) 272-7600,

Attention Customer Service

Terms and conditions of sale and warranty information can be obtained from Customer Service Representatives at the above listed numbers.

What we need to know:

Basic typesetting and layout is included in our prices.

Logos, require a professionally printed, color separated image. In high resolution, on photograph quality paper. BMP and JPEG's with an original design resolution of 600 dpi or higher in most cases are useable. Charges to convert these into vector art will be priced individually.

We prefer art work that is already vectorized and we can accept files in Corel Draw (CDR), Adobe Illustrator 8 (AI), Encapsulated Post Script (EPS), or as an Adobe PDF, in a PC format, however, conversion fees may apply depending on the format sent.

Should a specific letter font be required, the name of the font is needed. However, if we do not have this font in our library, a copy from your computer font library will be required.

Faxes, copies, business cards, photographs, and web images are not useable, but for illustration only.

Designs which require more than one rework and resubmission, or is extraordinarily complex, will require an additional design / setup fee which we will quote on a case-by-case basis.

ACI stocks primary colors in silkscreen inks and adhesive vinyl's.

Custom or PMS (Pantone Matching System) colors may require an additional charge.

Please include an actual sample of the color for reference as not all colors can be matched exactly, we will match a color as closely as possible. Color blends and or gradient fills are not reproducible with our production methods.

Magnetic signs are rubber coated magnetic material which is ideal for removable signs, decals, or other markings used on metal surfaces such as vehicles. These signs can be as much as 24" in one direction and virtually unlimited in the second direction. Vinyl letters and graphics are the standard for very small quantities having a simple design. Larger quantities and/or greater complexity of design are usually silk-screened.

Magnetic signs are specifically designed with a magnetic backing to be mounted to a metal surface. These signs are easily applied to any surface that a standard magnet would stick to.

 Custom Made Wrought Iron Furniture Tucson, Az.

Pressure sensitive, computer cut vinyl letters and numbers are the perfect medium for messages on windows, directories, signs, vehicles, or any other smooth non-permeable surface. We send your legend to you, properly spaced and aligned for application, along with application instructions.

Standard letter heights for computer-cut legends range from 1" to 10" without a seam. Letter heights greater than 10" will be quoted upon request. If font is not specified, we produce your legend in Helvetica. Legends can be cut in a wide variety of premium 3M vinyls and colors as well as in promotional grade vinyls. Custom color matching, which requires screen-printing, is also available at an additional charge.

Non-reflective legends can be produced either forward cut for surface application or reverse cut for application to the inside of windows or glass doors.

Pre-Spaced Legends

The visual effect of all typestyles can be altered by . . .

bolding

italicizing

condensing

expanding

. . . at no additional charge.

We can also . . .

OUTLINE

POSITIVE ARC

NEGATIVE ARC

. . . your copy to your specifications for a modest additional charge. Multiple lines of copy can be . . .

LEFT JUSTIFIED

CENTERED

LINE FOR LINE

RIGHT JUSTIFIED

. . . at no additional charge. Generally, we set material with normal letter spacing. But you can specify tight or wide letter spacing for no additional charge. Or, if you prefer, just tell us how much space you have to fill and we will adjust spacing or letter size to fit.

WHAT WE NEED TO KNOW

So that we can expedite your quote or order, please provide the following information:

- ❖ Quantity of identical legends
- ❖ Letter height (determined by height of capitals)
- ❖ Font desired
- ❖ Case (upper, lower, or upper and lower)
- ❖ Forward cut or reverse cut
- ❖ Other desired options
- ❖ Color and reflective or non-reflective
- ❖ Size of the area legend will be installed on

Let ACI be your source for high-quality, durable, and economical vehicle and fleet graphics

Whether identifying official vehicles or advertising commercial products and services – no matter how large or small the fleet – turn to ACI. We manufacture the highest quality 3M vinyl fleet markings, precise computer-cut graphics in multiple sizes, multicolor or custom color matched. Application over rivets or corrugations or application of large-scale graphics is no problem with positionable 3M Controltac™ vinyl. Your graphics can even be read at night by using 3M Scotchlite™ reflective vinyl -- not only a memorable, high-impact graphic treatment but also an added measure of safety during night driving.

Graphics applied by ACI are highly resistant to cracking, peeling and fading!

Pricing is determined by amount and type of material required and man-hours to fabricate and install. Additional man-hours are assessed if removal of old graphics is necessary. Therefore, it is difficult to quote a firm price in advance, but a best guess estimate can be provided if desired. In order to make the estimate, we need the following information:

- Make, model, and year of vehicle
- Description of graphics package desired
- Colors and type (reflective or non-reflective) of material

Our design team can take graphics from raw concept to finished artwork. From a general design for the truck shown above, our artists created eye-catching graphics for this fleet.

Street name signs in a variety of styles, sizes and colors are available to match existing community standards. Normally, street name signs are .080 aluminum substrate, reflective and double sided without holes, and copy is upper and lower case in white on green background. Street name signs can also be customized with cut vinyl or screen-printed logos or graphics (quoted upon request).

Street signs provide easy visibility day or night. Our standard signs are made from durable .080 aluminum using a green background and white reflective copy.

Style A

Style B

Style C

Signs are double-sided in a choice of three standard heights: 6", 8", 9"

18" length

24" length

30" length

36" length

48" length

WHAT WE NEED TO KNOW

So that we can expedite your quote or order, please provide the following information, along with a sketch of the sign layout:

- Quantity of identical signs
- Sign dimensions (width x height)
- Copy
- Color information for background, copy and border
- Style information for sheeting, corners, border and copy
- Substrate (.080 aluminum assumed)

OSHA Industrial Safety markers are available as signs or as computer cut, vinyl decals for interior or exterior applications. The signs come in two weights, can be reflective or non-reflective and can be provided with holes, if desired.

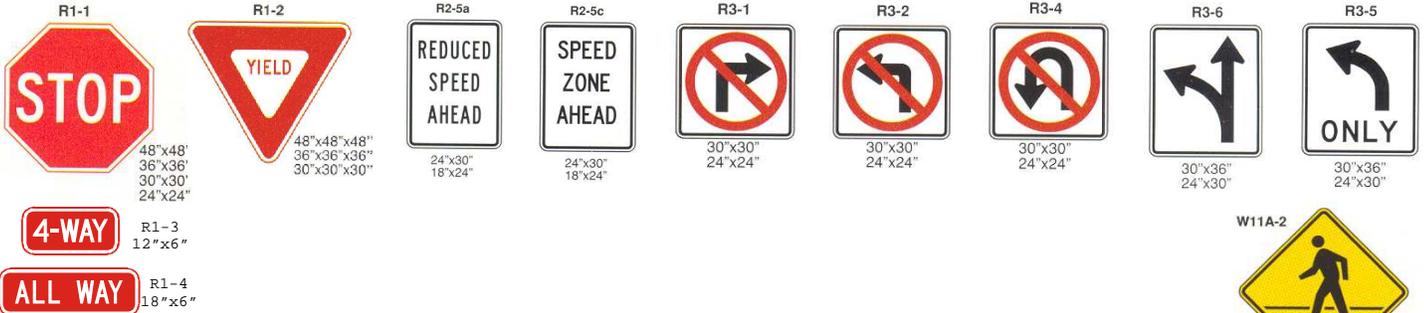

<p>Custom OSHA signage allows you to be in compliance and be specific and appropriate in any given situation. The graphics can either be screen printed or computer cut vinyl.</p>				
<p>Available in two standard sizes: 7" x 10" and 10" x 14"</p>				
				
<p>Danger: used to indicate that an immediate hazard exists which could cause death or serious injury</p>	<p>Warning: used to indicate that an immediate hazard exists that has some probability of causing death or serious injury</p>	<p>Think: used to bring attention to company safety rules to prevent accidents from occurring</p>	<p>Notice: used to indicate general safety rules. Notice should not be used in place of Danger, Warning or Caution</p>	<p>Caution: used to indicate that a potentially hazardous situation exists that could cause minor or moderate injury</p>

WHAT WE NEED TO KNOW

So that we can expedite your quote or order, please provide the following information:

- o Quantity of identical signs or decals
- o Sign or decal dimensions (width x height)
- o Number and location of holes, if desired
- o Substrate information (reflective or non-reflective, metal weight)
- o Header and text

We offer any traffic control sign, in the standard size you require, formatted in accordance with the federal standards contained in the Manual of Uniform Traffic Control Devices. The signs we manufacture are .080 aluminum with 3M reflective, High Intensity Prismatic Grade Sheeting.

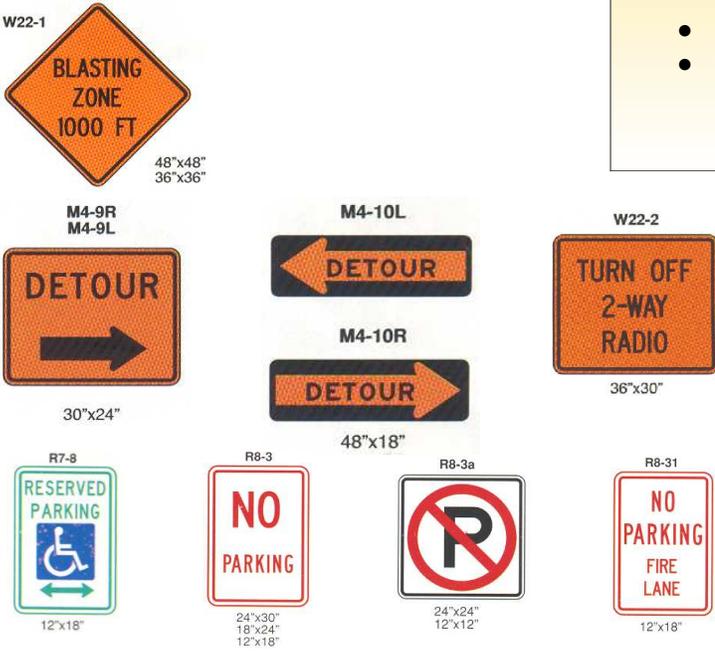

Have a vandalism problem?

. . . ACI introduces Graffiti Coating for signage. This process utilizes a clear film or spray protectant, that is applied to the signs after completion, to protect them from excessive dirt and reduce the effects of vandalism and graffiti.

WHAT WE NEED TO KNOW

So that we can expedite your quote or order, please provide the following information:

- Quantity of identical signs
- Sign dimensions (width x height)
- Corner style (square or rounded)
- Number and placement of holes, if desired
- List of colors
- Text and graphics

Tobacco Free School Signs

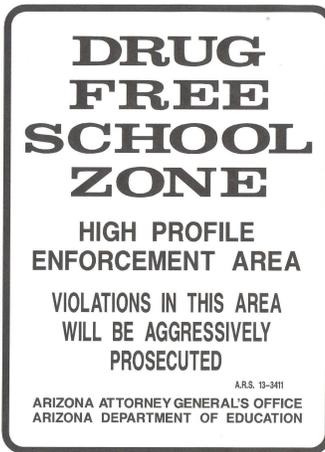

These sturdy, all-weather, aluminum signs are now available to all Arizona schools and are only available through Arizona Correctional Industries. The Arizona Department of Health Services supports the use of these signs in order to promote a tobacco free school environment.

Exterior Building Sign	 <p>ATTENTION: All Students, Staff, and Visitors</p> <p>This is a tobacco free campus.</p> <p>NO tobacco permitted on school property at any time. Public Health & Safety Code: A.R.S. 36-798.03</p>	Perimeter/Parking Lot Sign
12" x 18"		18" x 24"
English or Spanish	 <p>ATENCIÓN Estudiantes, personal y visitantes</p> <p>Este es un campus libre de tabaco.</p> <p>NO se permite la posesión de tabaco en ningún momento en los dominios de este centro educativo. Public Health & Safety Code: A.R.S. 36-798.03</p>	English or Spanish

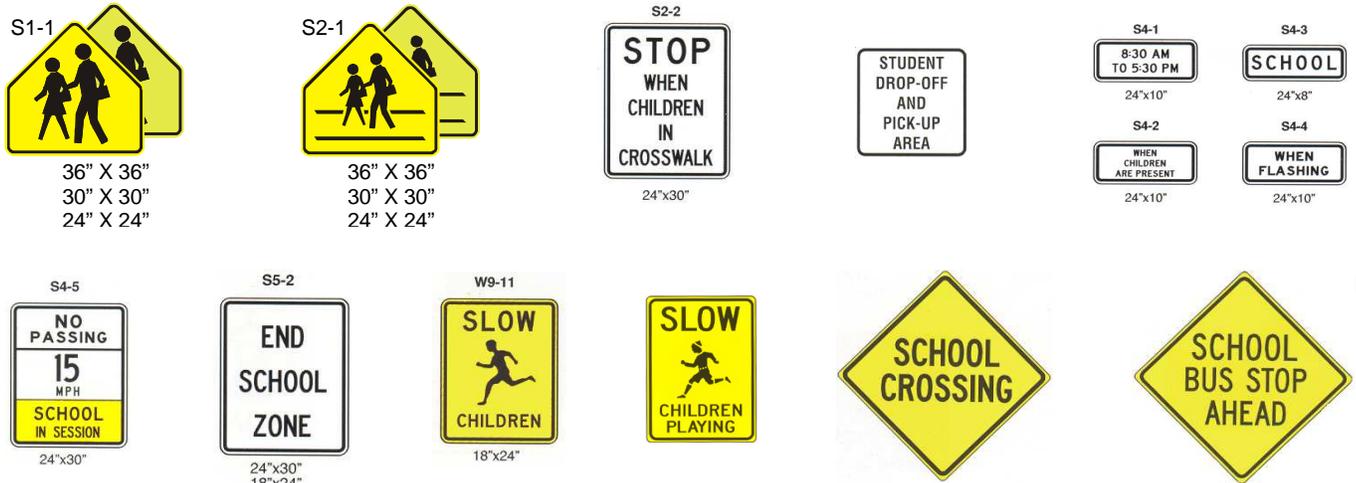

Signs are made from sturdy .080 aluminum in white with black and red type/graphics and are available in two styles in either Spanish or English: an exterior building sign 12" x 18" and a perimeter/parking lot sign 18" x 24"

Drug Free and Weapon Free School

Standard signs are 18" x 24" in 24 gauge aluminum and are available in six choices of text.

 <p>DRUG FREE WEAPON FREE</p> <p>HIGH PROFILE ENFORCEMENT AREA VIOLATIONS IN THIS AREA WILL BE AGGRESSIVELY PROSECUTED</p> <p><small>A.R.S. 13-3411 ARIZONA ATTORNEY GENERAL'S OFFICE ARIZONA DEPARTMENT OF EDUCATION</small></p>	 <p>DRUG FREE SCHOOL ZONE</p> <p>HIGH PROFILE ENFORCEMENT AREA</p> <p>VIOLATIONS IN THIS AREA WILL BE AGGRESSIVELY PROSECUTED</p> <p><small>A.R.S. 13-3411 ARIZONA ATTORNEY GENERAL'S OFFICE ARIZONA DEPARTMENT OF EDUCATION</small></p>	Drug Free School Zone (English)
		Drug Free School Zone (Spanish)
		Weapon Free School Zone (English)
		Weapon Free School Zone (Spanish)
		Drug Free / Weapon Free Combination (English)
		Drug Free / Weapon Free Combination (Spanish)

We offer a number of signs which are of particular interest to school administrators for use in and around their campuses. Each of these is available in various sizes. Most standard signs are constructed with .080 aluminum, engineer grade reflective sheeting, and round corners. Holes are provided upon request. Fluorescent yellow/green diamond grade sheeting is available for S1-1, S2-1 crosswalk signs. Diamond grade sheeting can be applied on other signs as well. Please call for a quote.

STOP SIGN HAND PADDLES

These lightweight octagonal signs are made of aluminum and come with a 6" metal handle that is easy to hold. Signs are double faced and perfect to use at school cross walks.

WHAT WE NEED TO KNOW

So that we can expedite your quote, please provide the following information:

- Quantity of identical signs
- Sign dimensions (width x height)
- List of colors
- Number and location of holes, if desired

Arizona Correctional Industries provides quality signs to commercial and industrial businesses and government agencies throughout the state. Along with our standard sign products, we work with our clients to develop specific sign systems to meet their individual needs. The ACI Sign Division is staffed with highly trained employees that utilize the latest computer-aided design and manufacturing equipment to ensure top quality, cost effective signage. The most popular metal grades for these signs are, .063 and .080 aluminum and are available with a finish coated with reflective or non-reflective vinyl sheeting. Pricing is for single color signs only. For multi-color signs please call or e-mail for a quote.

Sheeted .063 Aluminum

For signs that require heavy indoor or moderate outdoor use. This durable gauge can be post mounted in sizes up to 18" x 24" and is excellent for fence or building mounting.

Sheeted .080 Aluminum

For signs that require outdoor use. This heavy gauge metal is designed for post mounting and has an anodized finish.

Painted .080 Aluminum available by quote

What Is a Wapiti?

Wapiti (WAH-pa-tee), meaning "white ramp," is a Shawnee Indian word for elk, one of Arizona's largest and most majestic wildlife species.

When Columbus first arrived, there were ten million elk living throughout North America. By the early 1900's, there were fewer than 100,000 concentrated in a few western states. Through the efforts of modern wildlife management, they have increased to nearly one million elk in the wild.

Although elk are found here year-round, they are most visible in winter, when several hundred animals feed on this critical winter range. The best times to observe elk in the open are at dawn or dusk. Look for elk along the edge of treelines.

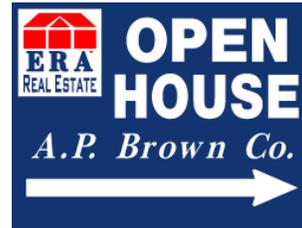

Why Do Elk Bogle?

The bogle is heard during the breeding season, from September to early October, as bulls court cows and seek to intimidate other bulls. It announces their readiness to fight. Boggles are noisy vocalizations made by bulls. It's a bellow that escalates to a squealing whistle, often ending with a grunt. If you've never heard an elk bogle, you've missed one of the great thrills in nature.

Did You Know?

- Bulls can weigh 700 to 800 pounds, standing five feet tall at the shoulder, while cows average 500 pounds.
- A set of elk antlers can weigh up to 40 pounds.

We work closely with our clients to customize signs to their individual requirements. Whether you have a concept or no idea where to start, the ACI sign division will use its expertise and experience to design your signs. Custom sizes, hard to match colors, complex artwork are all fee based options.

These 24 guage steel signs are a quality product, yet offered at an economical price. They come with a double sided, white, baked enamel finish for lasting durability. These signs are available in any size up to 24" x 36". Vinyl letters and graphics are the standard for very small quantities. Larger quantities are usually silk-screened. They are perfect for mounting on doors, fences and walls or hanging on stands and frame systems.

WHAT WE NEED TO KNOW

So that we can expedite your quote or order, please provide the following information:

- Quantity of identical signs
- Sign dimensions (width x height)
- Number and location of holes, if desired
- Corner style (square or rounded)
- List of colors
- Text and graphics (artwork, if appropriate)

Engraved nameplates are made of laminated plastic or metal. They are available in a wide range of colors and sizes. Unless otherwise specified laminated plastic will be used, names and departments will be capital letters, titles will be in upper and lower case letters and all text will be in Block Normal font.

Nameplates are available in laminated plastic or marble finish (see sample pages for color) with up to two lines of text. They can be ordered with or without your choice of adhesive, magnetic or Velcro backing.

- Quantity of identical name badges
- Part number
- Color
- Text for each individual badge

All places of public accommodation and commercial facilities are now required to have interior and exterior signage that meets ADA requirements. ACI has a full line of Braille and raised-letter signs to accommodate your building. ACI recognizes that people differ in size, age and ability, and our product designs embrace these differences. Our design method meets the need of all our customers. ADA signs are available in many color combinations and in a number of standard sizes.

Standard Styles				
Standard Colors for Both Styles of Sign Face	White, Red, Beige, Green, Black, Blue, Maroon, Brown			
Standard Sizes for Both Styles	02" X 04"	04" X 04"	04" X 13"	06" X 12"
	02" X 08"	04" X 08"	06" X 06"	08" X 08"
	02" X 09"	04" X 10"	06" X 08"	09" X 09"
	02" X 10"	04" X 12"	06" X 09"	12" X 12"

Please note: ADA recommends a 70% color contrast factor in all engraved signs: for example, a red sign with white letters is considered high contrast and is preferred over a less contrasting color combination such as a white sign with beige letters. Also, ADA says that the raised-lettering must be at least 5/8" to meet the standard.

WHAT WE NEED TO KNOW
