

We offer any traffic control sign, in the standard size you require, formatted in accordance with the federal standards contained in the Manual of Uniform Traffic Control Devices. The signs we manufacture are .080 aluminum with 3M reflective, High Intensity Prismatic Grade Sheeting.

**Have a vandalism problem?**

. . . ACI introduces Graffiti Coating for signage. This process utilizes a clear film or spray protectant, that is applied to the signs after completion, to protect them from excessive dirt and reduce the effects of vandalism and graffiti.

**WHAT WE NEED TO KNOW**

So that we can expedite your quote or order, please provide the following information:

- Quantity of identical signs
- Sign dimensions (width x height)
- Corner style (square or rounded)
- Number and placement of holes, if desired
- List of colors
- Text and graphics
