OP-0800B Counter Top, 30" x 3/4", Per Linear Foot
OP-0800C Counter Top, 36" x 3/4", Per Linear Foot

We have provided casework and furniture for many districts across the state from preschools and kindergartens to high schools, colleges, and universities.

Our products are highly regarded by educators for meeting the rigorous demands of the education setting. We combine our extensive experience with functional design and practical engineering to create innovative products virtually unmatched in quality and value. We offer a wide variety of storage and work surface solutions for specific applications including music rooms, science labs, audio/visual centers, technology labs, arts and crafts, libraries, and administration.

Our standard construction utilizes industrial grade particle board, top quality plastic laminate, and heavy-duty institutional quality hardware for cabinets that are as strong as they are durable. It all adds up to millwork that will provide many years of outstanding performance under the heavy demands of the education environment.

MILLWORK

Audio Visual Cabinetry

Built durably to withstand years of use, Arizona Correctional Industries Audio-Visual cabinets feature 1^{1/8}" solid-core composite with a laminated surface that is designed to resist scratches and stains. Standard Audio-Visual cabinets are available in a wide variety of laminate colors and come in two styles (corner and center of room) and three styles of tops. Special designs can be made upon request.

The cabinet configuration you choose will eliminate unwanted clutter while optimizing useable work surfaces. Whether built-in or free-standing, ACI millwork can be fitted with electrical or computer wire management components, providing even more flexibility in space planning.

We firmly believe that, as a custom manufacturer, we should take the greatest care to meet our clients' desires - even if it means we have to create a new design, match a finish to a certain décor, or design a cabinet shape that is not included in our standard product line. That's why ACI Millwork should be your supplier of choice.

Base Cabinets

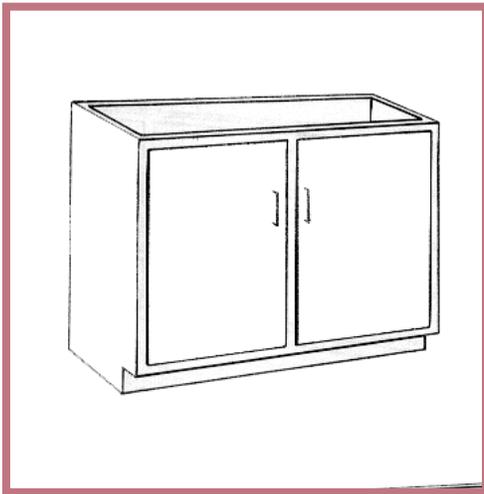

ACI cabinets have great styling and are well planned for the best use of space. We understand your needs and offer you alternatives beyond standard cabinet selections. In comparison with other cabinets of similar materials, quality and construction, ACI offers some of the most competitive pricing in the industry. Superior quality at competitive pricing equals an exceptional value for you.

Sink Cabinets

It has been said that a cabinet is only as good as the installers that are putting it in. Well, here at Arizona Correctional Industries in the Valley of the Sun, our installation crews are experienced installers in a variety of layouts. When they go to work, you will be impressed. Every team of our installers has the ability to work masterfully around all inherent challenges that a job site can throw at them. Thanks to these Craftsmen, your workspace will look as professional as the display did in our showroom. Guaranteed.

- OP-0806 Sink Cabinet 24 x 22 3/4 x 35 1/4"

- OP-0804 Sink Cabinet, 3 door unit 24 x 22 3/4 x 35 1/4"

REUPHOLSTERY

BEFORE

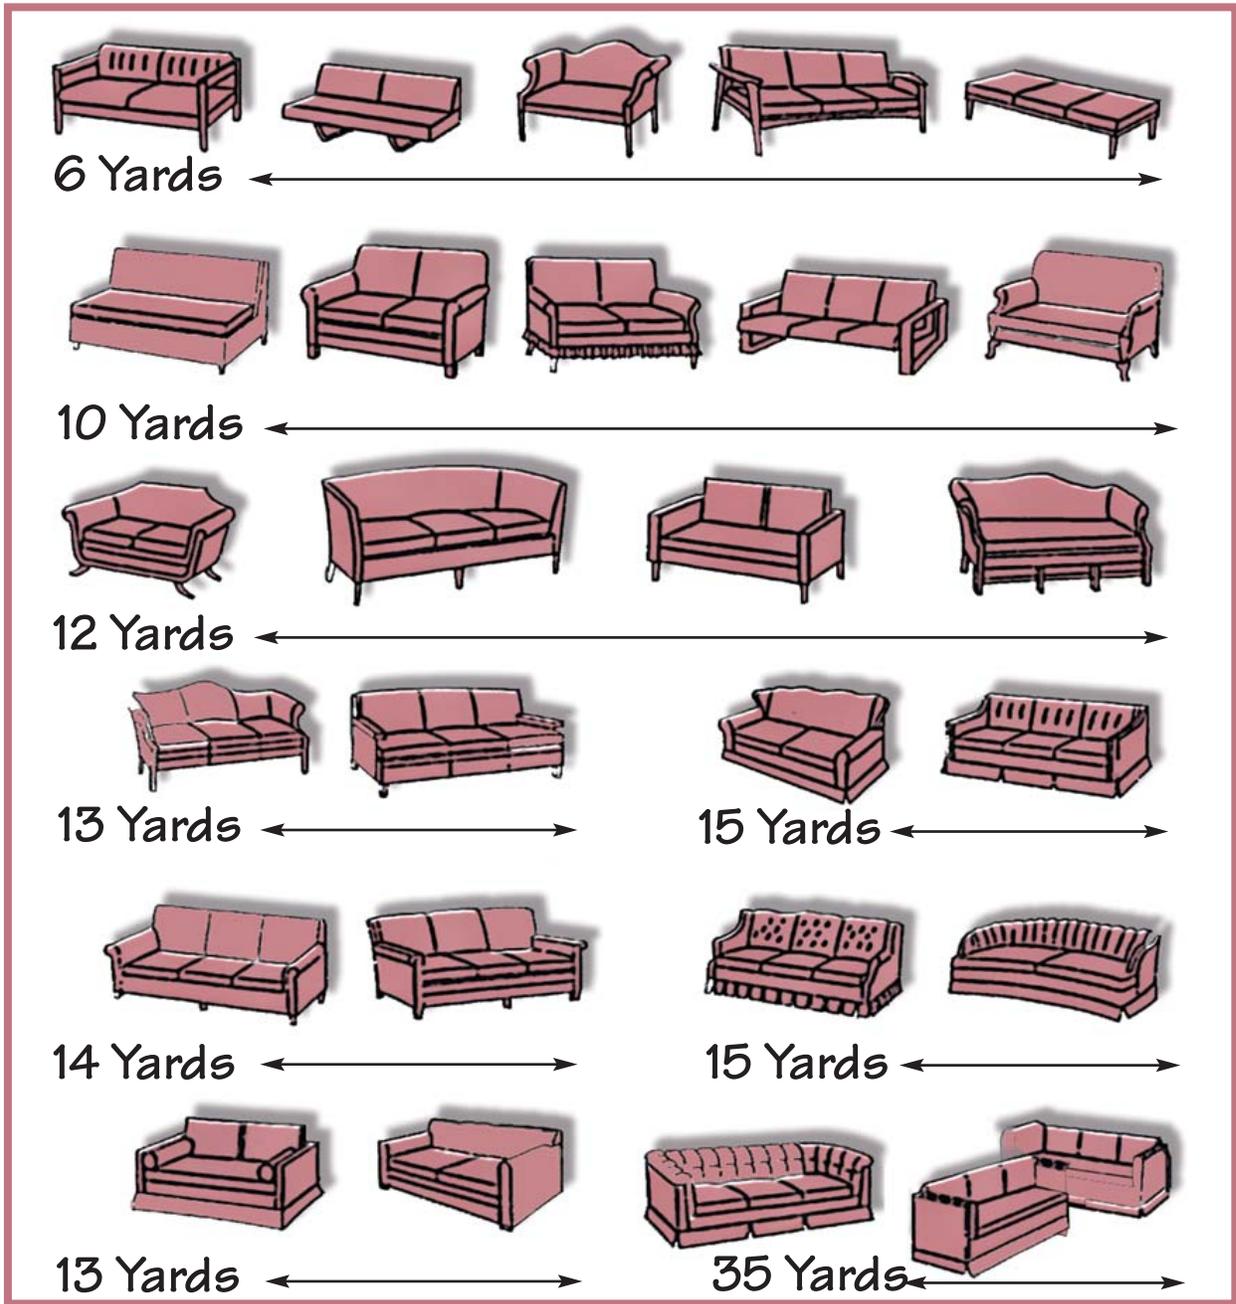

AFTER

ACI has been in the furniture and reupholstery business for more than 10 years. From simple repairs to custom re-built items, our attention to detail and fine craftsmanship is ACI's number one concern. Buying new office furniture is not the only answer to your furniture needs. Arizona Correctional Industries invites you to explore the many options we have available to rejuvenate your old, damaged or simply out of date furniture.

Want a new style? We can re-style your old furniture to create a brand new look and feel for your decor. We have many fabric and vinyl styles to choose from, and we can add standard or special cushions to any chair or couch. For a fraction of the price of buying new furniture, you can have your office systems and furniture recovered and refurbished to give your office a fresh modern look.

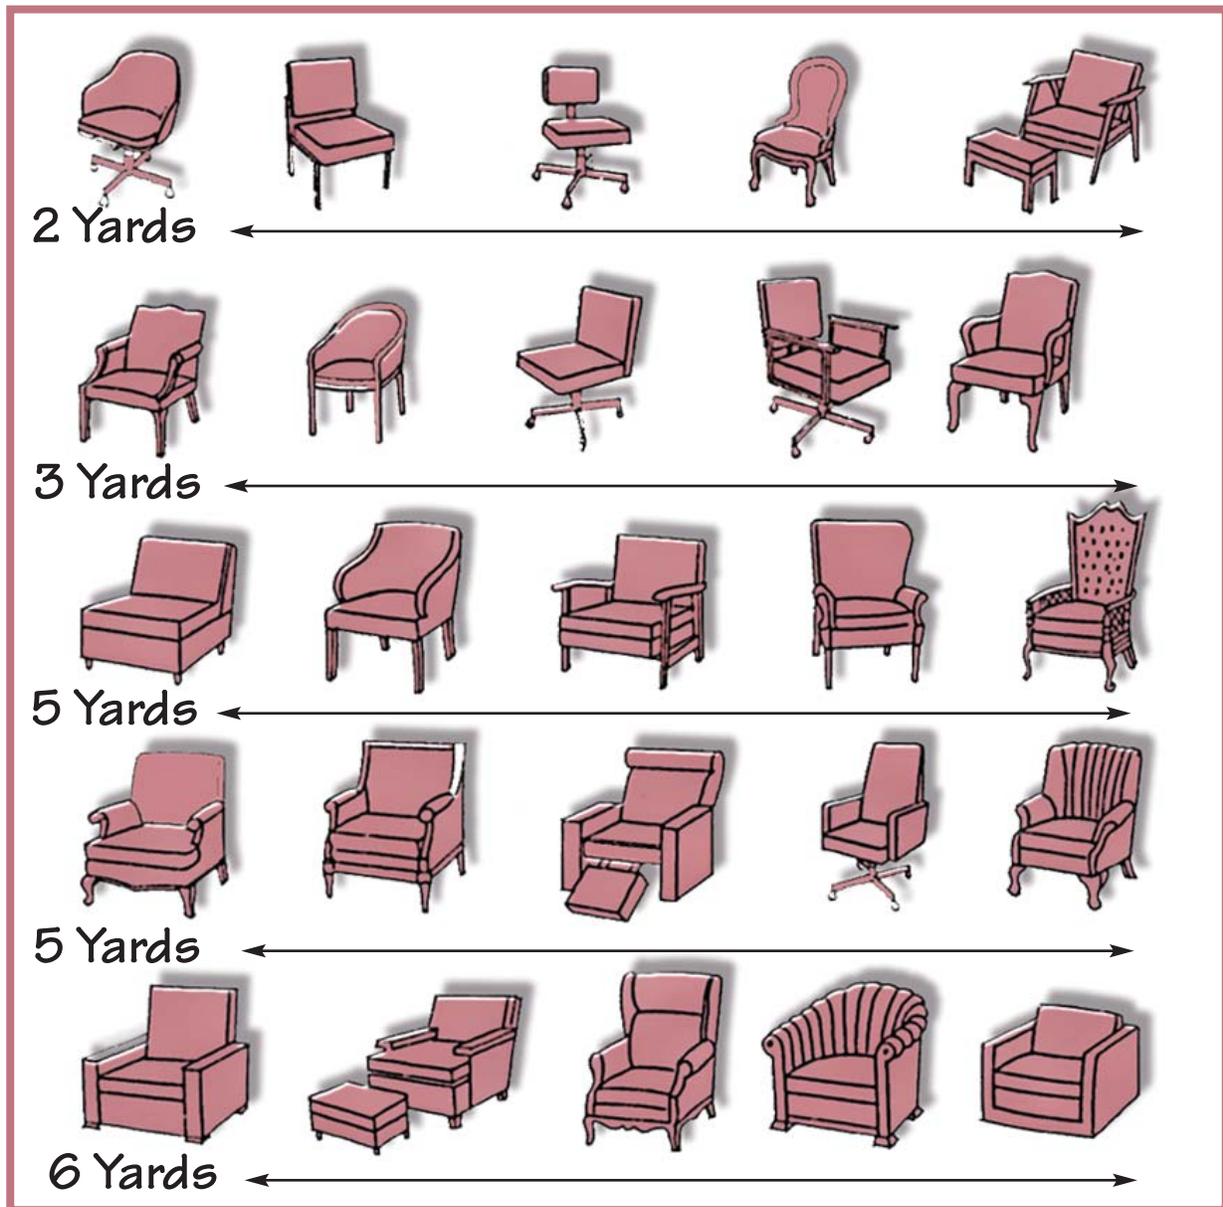

Furniture Style Charts

The furniture illustrations shown on this page are provided as a guide in determining the type and size of furniture that will be reupholstered. Your particular piece may vary in style, trim, width, etc. For yardage estimates, select the illustration on the chart that best matches the existing piece that is to be reupholstered.

Let Arizona Correctional Industries take your furniture in almost any condition and make it just like new. Combining the techniques of hand-made furniture with modern materials, ACI's wood and metal refurbishing produces stronger, more durable furniture at an affordable price. If you have special requirements for your office, school, or classroom, ask about our custom built furniture.

- Regluing
- Damage repair
- Staining and finishing with superior lacquers and polyurethanes

Broad Range of Furniture Services

- Caster replacement
- Structural repair
- Drawer glide work and on-site repairs

REFURBISHING

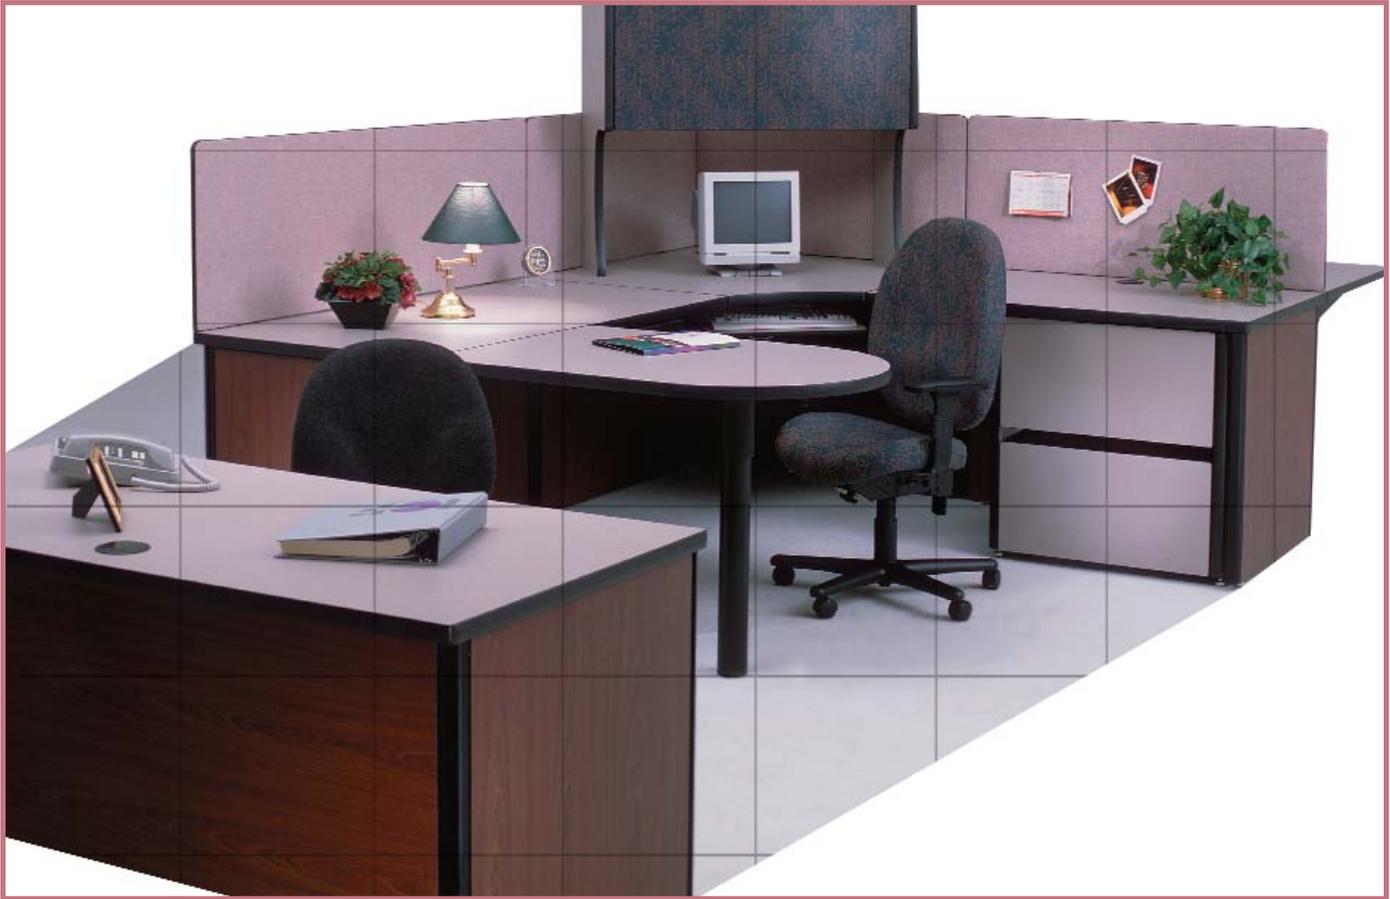

Office modular systems and furniture are vulnerable to ripping, fading, soiling or becoming drab and outdated. Refurbishing and reupholstering your furniture can change and update your office, and with proper colors can create a look of success and a professional appearance.

It's impossible to avoid the occurrence of unintentional damage to fine wood furnishings and millwork. The warm, rich glow of wood finishes, whether cherry, mahogany, ebony or pear, dry out from exposure to heating and air conditioning. Reception desks and secretarial stations carry the worn reminders of writing implements, flower pots and taped notes, in addition to the knocks and blows from deliveries. All of these scratches, dents, scrapes and gouges can be removed...the wood furnishings and millwork brought back to the original luster and depth of shading...the beautiful, rich finish restored. Some projects can be accomplished on site!

COMPONENT FURNITURE

Our freestanding modular component designs can be easily customized to fit your existing space requirements. Details such as wood and finish selections, ergonomics and wire management can be predetermined to help create your perfect work environment.

All of our components are efficiently manufactured in our factory. This means a minimum of on-site assembly thus resulting in a clean, timely delivery with little disruption to your work environment. Additionally all of our component furniture can be easily disassembled for easy relocation.

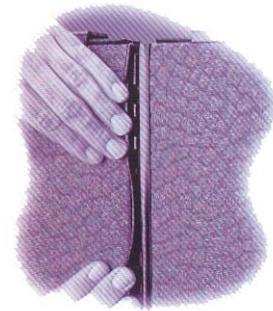

At ACI we can design, manufacture and install for you a built-in "one of a kind" office workspace. One that provides a unique and functional environment designed to maximize space and compliment your existing decor.

Installation Services

Arizona Correctional Industries Installation Services is a full service support division specializing in custom installation of modular furniture systems, tailored to your specific needs. Whether your project is large or small, our job is not finished until you are completely satisfied.

Whether you are installing a new space or your existing space is in need of remodeling, the process begins with an idea of the finished product. Working with our sales staff, your ideas are translated onto paper. Decisions are then made based on the product, the complexity, and the pricing according to your needs. The product is then delivered to your site and is ready for installation.

INSTALLATION

The success of your project is determined by the quality of the installation. A lack of attention to details can mean panels that are not secure, and poor installation can make even the most expensive product look shoddy.

Arizona Correctional Industries Installation Services uses a quality product and the accuracy of the installation enhances the finished product. The quality of our workmanship is guaranteed. We offer flexible hours to conform to your needs. Our work is not done until you are completely satisfied.
